Latest News Regarding Far-Eastern Question Shows Danger Not Yet Over.

St. Petersburg, Oct. 22.—The request of the Associated Press to-day for a statement from the foreign office indicating Russia's position in connection with the

Far Eastern question, elicited only the significant reading of a less reassuring dispatch from Tokio.

The newspapers here say the Russian Pacific squadron consists of fifty-four warships, including six battleships.

The Novoe Vremya declares that many most influential Japanese newspapers are subsidized by Americans and Englishmen.

AWARD BROUGHT UP IN PARLIAMENT

Statements by the Premier and Hon. R. W. Scott--A. B. Aylesworth's Attitude Regarding Portland Channel Islands.

(Special to the Times.)

Ottawa, Oct. 22.—In the Senate to-day Sir Mackenzie Bowell asked for information concerning the Alaska boundary.

Hon. Mr. Scott said that the most important reason why the Canadian commissioners did not approve of the award was that it was not a judicial document decision. Lord Alverstone had in the first instance agreed that the centre of the Portland canal should act for the boundary line. These four islands should have gone to either one country or the other, depending upon the position of the line through the Portland Channel. Subsequently Lord Alverstone deflected the line so as to turn two of the islands into the United States and two into Canada, that is Wales and Pearse Islands, the United States, signed the treaty. There was nothing for Canada to do then but protest and agree, and this was graciously done.

Sir Mackenzie Bowell said that it was singularly unfortunate that in every case where negotiations have taken place between the United States and England where Canada was affected, the United States diplomats have succeeded in securing islands which command the most important points of our Dominion. There was the Island right opposite the harbor of Port Arthur. In case of difficulty that island will have to be secured by the British people, for if fortified it would command the entrance to that harbor. Unless that were done the United States could secure it. With the guns they have at present they would be able to destroy the connection between the East and West. It was the same with the Island of San Juan and that was secured by treaty negotiation. Now the United States will command Port Simpson. In every case Canadian interests were sacrificed. "I do not think," added Sir Mackenzie, "that public men should express an opinion on the meagre information obtained through the newspapers."

Senator McMullen said that the decision would create as much dissatisfaction in Canada as there was in the Transvaal and in Ireland.

The subject of the award was brought up in the Commons by the Prime Minister, laying upon the table of the House a portion of the promised correspondence.

R. L. Borden asked if the correspondence would afford any information as to the protest alleged to have been put in by the Canadian commissioners. He also asked if the government had received any information as to the reasons which led to two of the islands at the entrance of the Portland Channel being given to the United States.

R. L. Borden asked if the correspondence would afford any information as to the protest alleged to have been put in by the Canadian commissioners. He also asked if the government had received any information as to the reasons which led to two of the islands at the entrance of the Portland Channel being given to the United States.

FIGHTING ADMIRAL NOW IN COMMAND

JAPAN CONTINUES NAVAL PREPARATIONS

Steamship and Railway Companies Are to Hold Themselves Ready for Any Emergency.

Yokohama, Oct. 21.—The ministerial conference, naval preparations, notably the appointment of Vice-Admiral Loga, known as a "fighting admiral," to command the standing squadron, have led to a renewal of the anticipations of trouble. Some decided development in the crisis is expected shortly. The steamship and railroad companies are reported to have been notified to be in readiness for emergency.

May remain.

St. Petersburg, Oct. 21.—A dispatch to the Novoe-Vremya, from Vladivostock under to-day's date, says: "The Japanese government has informed its consul here that there is no reason why the Japanese should leave Vladivostock. This was in reply to a query of the consul on the subject."

Opening of Ports.

St. Petersburg, Oct. 21.—The Novoye-Krai of Port Arthur, commenting on the commercial treaty between the United States and China, declares that article twelve (opening ports in Manchuria to United States trade) strikes at the very heart of Russian interests in Manchuria, and says it is convinced the treaty will only be ratified after material modifications, as it affects part of the territory which, by virtue of existing relations, is not free so long as Russia has not definitely come to an understanding with China regarding her rights.

"Moreover," the paper adds, "prior to her present occupation Russia had special treaty relations with China regarding this territory, giving her the right to build railways and guaranteeing that no similar privileges would be granted to others."

Not confirmed.

London, Oct. 21.—A report was in circulation on the stock exchange to-day that the negotiations between Russia and Japan had been broken off, but the foreign office officials here said they had not heard anything confirming the rumor. This statement was made subsequently to a visit paid by Baron Hayashi to Foreign Minister Lansdowne this afternoon. The officials of the foreign office added that the report was contrary to the general trend of its information.

STRIKE IN SPAIN.

Nineteen Thousand Workers Idle—Troops Sent to Scene of Troubles.

Bilbao, Spain, Oct. 21.—A strike broke out yesterday in the Bilbao mining district and spread rapidly. Nineteen thousand workers are idle. The railroad service has been interrupted. Reinforcements of troops are arriving here.

POST OFFICE ROBBED.

West Superior, Wis., Oct. 21.—The Superior post office was robbed last night. Over \$1,000 in stamps and currency is said to have been secured.

LOVE

Often leads to poverty. No real woman ever sold her heart for the luxuries of life.

But many a woman who has gladly faced poverty for the man she loved, may well doubt her wisdom when pain becomes the mate of poverty. If she were rich, she thinks, she could find a way of cure.

Dr. Pierce's Favorite Prescription is within the reach of every one. It lifts the burden of pain which weighs down those who suffer from bodily diseases. It establishes regularity, dries up sweating, heals inflammation and ulceration and cures female weakness.

You have my heartiest thanks for your kind advice to me," writes Mrs. Geo. Fletcher, of Victoria Avenue, Galt, Ontario. "Was troubled with catarrh of uterus for over a year. The doctor said I must give up all hope of recovery, but I commenced to use Dr. Pierce's Favorite Prescription and 'Golden Medical Discoveries,' also his 'Lotion Tablets' and Antiseptic Lotion. In a short time I was entirely and completely cured, after using six bottles of Dr. Pierce's medicines. I am glad to say his medicine has made me a new woman."

Weak and sick women, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets are easy and pleasant to take. A most effective laxative.

FRENCH TRAGEDY.

MAN Suspected of Being Implicated in Sensational Crime Attempts Suicide.

Paris, Oct. 21.—A man named Lademann shot himself today at Lyons as he was being arrested by the police in connection with the murder at Aix Les Bains last month of Eugenie Fougeron. His condition is critical.

Lademann's brother says the crime was arranged between a woman named Grati, known in certain circles as "La Nubienne," and Henri Massot, her lover. Lademann agreed to assist in the theft of the Fougeron woman's jewels upon the condition that there be no killing. He secreted himself in the garden of the murdered woman's villa. When Fougeron maid came in the house she was bound and gagged by the Grati woman. After handing Lademann the jewels, the Grati woman strangled the maid, and the Grati woman then asked Lademann to kill and bury her. This he did, having with the jewels.

BOUNDARY AWARD.

United States Officials Do Not Expect Details Until Mail Brings Maps.

Washington, D. C., Oct. 21.—The situation prevails at the United States state department to-day that all the details of the Alaskan boundary commission's decision will not be known until the mail brings copies of the maps and other documents laid before the commission. There is a slight gap in the outline description of the boundary in the northern portion, which will, probably, be filled in when the full transcript is received. Inspection of the claim will add to the satisfaction of the officials, particularly the commissioners, actually extended the American title over a huge territory north of the Klondike river to the boundary line claimed by Secretary Everts a quarter of a century ago, instead of limiting it to the boundary fixed by the Hay-Pancrefofficials.

The chairman, E. White was called upon for a solo, "The Death of Nelson." This was enthusiastically encored. C. E. Redfern, a programme which made a fitting celebration of the anniversary of that occasion. In the absence of Mayor McCandless, the chair was taken by Ald. Cameron, M. P. Prent. Those who occupied places on the platform were A. B. Fraser, Secy. president; J. Pearson, honorary secretary of the Navy League; C. E. Redfern, P. W. Soloman and G. W. Woodlief.

After a few introductory remarks by the chairman, E. White was called upon for a solo, "The Death of Nelson." This was enthusiastically encored. C. E. Redfern, a programme which made a fitting celebration of the anniversary of that occasion. In the absence of Mayor McCandless, the chair was taken by Ald. Cameron, M. P. Prent. Those who occupied places on the platform were A. B. Fraser, Secy. president; J. Pearson, honorary secretary of the Navy League; C. E. Redfern, P. W. Soloman and G. W. Woodlief.

There was a large attendance at the gathering in the Y. M. C. A. auditorium last night in commemoration of the battle of Trafalgar. It was under the auspices of the local branch of the Navy League, and a programme had been arranged which made a fitting celebration of the anniversary of that occasion. In the absence of Mayor McCandless, the chair was taken by Ald. Cameron, M. P. Prent. Those who occupied places on the platform were A. B. Fraser, Secy. president; J. Pearson, honorary secretary of the Navy League; C. E. Redfern, P. W. Soloman and G. W. Woodlief.

Continuing, he explained, that ever since the days of the Roman Empire the nation that controlled the sea was most prosperous. Rome controlled the sea in her day. Later when America and the new world was discovered, it was again a fight for supremacy on the sea. Spain had the start, but her power was shattered because her navy wasn't sufficient. The fight was then between Holland, France and England. There had been a time when Holland's position was almost identical with that of England. She had colonies and a powerful fleet. When threatened by land, however, she had been unable to maintain her position. England's power had been most seriously threatened when Napoleon overran Europe. The only occasion that the power of England on the sea had been temporarily lost was in the fight with America. At this time Britain had been engaged with both France and Spain.

Reference was made to the record established by Britain in the recent war in South Africa. It was most remarkable that this war was fought 5,000 miles from the base of operations at London. A steady stream of men had been sent from the Old Country to the scene from the time hostilities commenced, and these corps had been kept supplied with provisions and stores.

The great trade route of the future.

London, Oct. 21.—The Liverpool Mercury says with regard to the Alaska boundary: "Canada had evidently the upper hand and it could not prevail."

The Leicester Courier says: "Having

paid a visit to Caesar, it is hoped that Canada will be content to abide by Caesar's decision. Lord Alverstone is not a man to sacrifice Canadian interests unless absolutely compelled that her contention

is correct."

Mr. Redfern concluded those present of the great occasion they were gathered together to celebrate, Jan. 18 years ago, at Trafalgar. Nelson had administered an overwhelming defeat to the combined fleets of France and Spain. Did not the very thought of this magnificent victory send a thrill of patriotism through all true Britons? The result of this battle had been felt throughout the world. Glorious indeed had been its effect. It had firmly established Britain's right to the supremacy of the seas, which she had maintained ever since. But all this had been obtained at a heavy cost. In the fight Nelson had received his death wounds. He, whose name every Briton revered, had been killed, but not until he had seen the accomplishment of his desire in the almost total annihilation of the enemy. What would have been the results?" Mr. Redfern asked, "If instead of a victory British arms had met with a reverse?" Napoleon would possibly have carried out his cherished desire to invade the continent.

THE ANGLICAN SYNOD

Held its Annual Meeting Yesterday in
Christ Church Schoolroom.

The synod of the diocese of Columbia opened yesterday in this city. It began in the morning with prayer and holy communion in Christ Church cathedral. The regular session followed in the schoolroom of the church. The attendance both of clergy and lay delegates was very gratifying. Rev. J. H. S. Sweet and Lindley Greaves were re-appointed secretaries, and Percy Wollaston, jun., treasurer.

In opening the proceeding His Lordship Bishop Perrin spoke of the gratifying condition of the diocese. In spite of all difficulties in the work of the church there had been marked progress made. He went fully into the question of the proposed severance of the diocese from the jurisdiction of the See of Canterbury to the primacy of the Canadian church. The relations with the See of Canterbury had kept the diocese of Columbia in close touch with the primacy of all England. The archbishop, however, was willing to allow of the diocese entering into allegiance with the primacy of Canada.

The missionary work of the church was also dealt with by His Lordship in his address. The greatest enthusiasm prevailed throughout Canada in this branch of the church's work. The secretary, Rev. L. Norman Tucker, had visited every part of the country in his efforts to awaken greater interest in the missionary work. The appeal was now being made for \$100,000 for next year's work. In concluding, His Lordship dealt with the question of religious education in the schools, an agreement having been reached with the Presbyterian and Methodist churches on the subject.

The proposal to permit of female suffrage in the Eastern vestry meetings and church committees came up for discussion. Rev. G. W. Taylor, of Wellington, dealt with the objections to allowing of it upon the preferences in Scripture to women.

A new canon dealing with the clergy widows' and orphans' fund and making considerable changes was confirmed. It comes into force at once.

An amendment to the canon dealing with the titles of the parochial clergy passed its first reading. It will therefore come up for confirmation next year.

An amendment was passed placing the appointment of church officials, not otherwise provided for, in the incumbents acting in conjunction with the warden and church committee.

Another amendment asserted the necessity of the clergymen's supervision and permission in the case of organizations claiming diocesan recognition.

It was decided to take into consideration the matter of establishing a depot for the sale of S. P. C. K. publications, and for this purpose the bishop appointed a committee.

Lindley Greaves presented the report of the committee on religious education. It was well received and enthusiastically endorsed.

The synod gave its assent to the withdrawal of the diocese from its present relation to the Archbishop of Canterbury.

It was decided to keep a diocesan register of baptisms for the more certain preservation of the records of the administration of this sacrament.

A proposal from the diocese of Niagara for reciprocity in beneficiary funds, was formally received.

Rev. A. J. Hall, of Alert Bay, gave an interesting account of his work among the Indians at the north end of the Island. His work, he pointed out, was not confined to the Indians alone, but embraced white settlers. He spoke of his visits to the cannery and his kind and hospitable reception by men and managers. The difficulties in the Indian work were referred to by him. Though there were many discouragements there was much to encourage.

Rev. J. Grundy, in charge of the Church of England Chinese mission, gave a report of his work, and appealed for greater interest on the part of the members of the synod.

A communication from the diocese of Montreal was read, in which the opinion of the synod was asked as to the advisability of holding a Canadian church congress on the lines of the congresses held in Great Britain and Australia.

The synod closed late in the evening, after a most beneficial session, and one which will result in the awakening of the work of the church on Vancouver Island.

The London Daily Chronicle says it understands that the government has decided to meet parliament next year and go to the country during the Easter recess. The paper says also that Premier Balfour would have dissolved parliament when the Duke of Devonshire resigned as lord president of the council had it not been that he wished Joseph Chamberlain to have a further opportunity of prosecuting his fiscal campaign.

The Presbyterian mission board, Toronto, has received a cablegram announcing the death of Mrs. J. H. Harcourt, Canadian missionary at Miow, Central India from plague.

GOOD TEMPLARS.

Grand Lodge Concludes Its Session at Nanaimo—The Election of Officers.

The Grand Lodge, I. O. G. T., concluded its annual session at Nanaimo on Wednesday afternoon. Only routine business was transacted. It was decided to meet in Vancouver next year. Following is a list of officers elected: Grand chief templar, J. N. Evans; Somenos; grand vice templar, Miss Lewis; Victoria West; grand councilor, A. D. Gothard, Vancouver; grand superintendent of juveniles, W. J. Brown, Nanaimo; grand electoral superintendent, Rev. C. M. Tait, Duncan; grand treasurer, S. Gough, Nanaimo; grand secretary, A. J. Bell; Somenos; assistant grand secretary, Miss Alice King, Cedar Hill; grand chaplain, Rev. A. E. Green, Vancouver; deputy grand marshal, R. Lairdhead, Vancouver; deputy grand marshal, Miss Lucy Vesper, Vancouver; grand inside guard, F. Nicolaides, Victoria; grand messenger, W. W. Bowen, Victoria; past grand chief templar, Dr. Lewis Hall, Victoria.

GAZETTE NOTICES.

Appointments Made—Company Seeking Courier for Railway From Spence's Bridge to Midway.

The Provincial Gazette this week contains notice of the following appointments:

Wm. E. Curtis, of Lowe Inlet, to be a justice of the peace.

R. St. G. C. Master, of Crofton, to be a justice of the peace.

John Simpson, of Poplar Creek, to be a police constable and a deputy mining recorder for the Trout Lake and Alansworth mining districts, with sub-recording office at Poplar.

R. A. C. Grant, of Victoria, to be a notary public.

Notice is given of an application to be made to the legislature to incorporate a company to construct railway, telephone and telegraph lines over a route from Spence's Bridge on the C. P. R., by way of Nicola, Aspasia, Grove, Oyster Flat, Granite Creek and Princeton, following generally the course of the Similkameen river to the international boundary line either at Osoyoos Lake or Midway, with a branch from Princeton to Copet Mountain.

P. S. Lampman, secretary of the Law Society, gives notice that there have been changes made in the subjects of the preliminary examination, and that the list of subjects may be obtained from him.

The following companies have been incorporated: The Western Steamship Company, Limited, with a capitalization of \$150,000, for the purpose of acquiring the steamer Wyndham and engaging in general steamship business; the Sharples Mining & Milling Company, Limited, with a capitalization of \$300,000; the Cranbrook Saw & Door Company, Limited, with a capitalization of \$40,000; Monashee Gold Mines, Limited, with a capitalization of \$1,000,000.

The Armstrong Farmers' Exchange, Limited, is incorporated with the objects set forth in the Farmers' Institute and Co-Operation Act.

Notice is given that the placer mining claims legally held in Fort Steele mining division and Lillooet district are laid over from 15th October, 1903, to 1st May, 1904.

IF IN TROUBLE AFTER EATING

One or Two of Dodge's Dyspepsia Tablets Will Bring Relief—One Lady's Experience.

Have you got Dyspepsia? Do you feel tired and irritable? Are your loins sore? Do you feel weak and listless? Do you feel like a dead weight? Are you troubled with sour stomach or gas accumulating on your stomach? Have you distressing pains after eating?

Any one of these symptoms means that your stomach is out of order and needs attention—means that you need Dodge's Dyspepsia Tablets. They will add to your comfort, help you with your work, and make you enjoy your rest when that work is done. The proof of this lies in the testimony of those who have used them. Gustav V. Campbell, of Birtle Skagway, Gloucester Co., N. B., says:

"I cannot say enough in favor of Dodge's Dyspepsia Tablets. I suffered from Dyspepsia for two months, and was always getting worse. One box of Dodge's Dyspepsia Tablets cured me completely."

If you are troubled after eating carry a few Tablets in your pocket, and you will always have sure relief at hand.

Two Crotians, said to be Milover Boye and Milover Patrovick, have been arrested at Southampton on the arrival of the steamer Philadelphia from New York. They were wanted in Pennsylvania for murder.

Official returns show that 474 dogs and cats suffering from hydrophobia were slaughtered in Paris last year.

THE NEW MINING TOWN OF POPLAR

A PERMANENT CAMP BEING ESTABLISHED

The Work of Clearing Site and Erecting Business Places in Progress— Prospects Bright.

The Poplar Creek mines which earlier in the season attracted so much attention are now, after a very promising point where they may be regarded as of first class commercial value. One marked advantage which the camp possesses is that it is easily reached by means of the C. P. R. In this way the cost of transportation and hence of mining is greatly reduced.

At the present time a townsite is being rapidly cleared and permanent buildings are being erected. All is bustle at the little town, no evidence in itself that those interested in the mines are well satisfied with the permanent values of the properties round about. Next season will likely see Poplar one of the busiest

owned by the Kaiser family: Ehlers's hotel, owned by Charles Ehlers, and the Hansen hotel, which is being constructed by William Hansen and associates.

The residents of the camp are, however, demanding better accommodations from the C. P. R. They want a station located there so as to do away with the freight being exposed to the elements on a platform. In addition to a depot they ask for a telegraph office to be located there.

Nature has dealt very kindly in affording excellent opportunities for testing the values of the properties. The country rises very steeply from the Larderan river and from the creeks which feed it, so that tunnelling is carried on with little trouble. In many instances it is possible to get stopping ground from 800 to 1,200 feet by drifting in a very short distance.

The quartz veins which carry the gold are located in solid and intersect the country very thickly. The provincial mineralogist, W. F. Robertson, who has just returned from the camp thinks there is no doubt but what the quartz veins will be found to have good depth. In the short time during which the mines of the camp have been in operation, there has not been the opportunity to prove to any great extent the various properties. The surface indications in many instances have been excellent, and next season will suffice to prove the real worth of the camp. Should the vein continue as good as the surface indications give, promise of the camp's future is assured. All those who have visited the place have every confidence in its proving to be the case.

The Great Northern mines, of which no work has been done, but on a

small scale, are located on the south side of the shaft and on the strike of the lead there intercepts what is believed to be the same vein, which at the surface there is about 18 inches in width.

It is intended to get out some ore and ship it to a smelter for a bulk test. The presence of tellurium is suspected, and it is to be found in the ore in any appreciable quantity the values may be expected to run proportionately high.

The country all around Poplar has

been staked. On many of these claims

but the water came in so rapidly that sinking had to be stopped. A pumping plant has been sent for, and when it arrives work on the shaft will be resumed.

It is believed that the place wealth of the district may be very considerable, and may add to the general prosperity of the camp.

THE DREDGE AND ITS WORK.

We can hardly comprehend the reason for the "unholy joy" with which our erratic contemporary contemplates the possible removal of the dredge King Edward at a time when so much depends upon the continuation of its work. Possibly the fact that, in the Colonist's estimation political considerations transcend all ideas of local patriotism may account for the zeal with which our neighbor second the efforts of the New-Westminster Columbian, another political zealot of the Tory stamp, to strike a telling blow at the progress of Victoria. We do not know in what light the majority of Conservatives in the city regard the imbecile efforts of their humoresque organ to make political capital at the expense of the city in which all their interests are centred, but we do know that if they really appreciate the work that has already been accomplished on their account by the dredge they will take some action that will fittingly express their views of the extraordinary conduct of the newspaper that claims to speak in their name.

It has for some time been obvious that there is a clique in this city which would prefer to see every institution in which our people are interested come to grief rather than that one atom of credit should accrue to men they believe to be opposed to them politically. They would have damned the fall if it had been in their power. They worked against it with all the remains of influence that is left to them. Now they are devoting their selfish energies to the task of obstructing the work that is being carried on in the mud flats. If they succeed the momentous projects which depend upon the early completion of that work will be balked temporarily, perhaps permanently, all because "Riley and the dredge" co-operating with a Mayor and Council who are supposed to be of the wrong political stripe, are the instruments through which the great improvements will be effected. If this is not petty politics carried to the verge of lunacy, we should like to be furnished with a more sublime example of idiotic malice and spleen. It is essential that the work now in hand shall be completed as speedily as possible. The C. P. R. hotel project depends upon it. A failure upon the part of the corporation to carry out its contract may be followed by the abandonment of that undertaking, a work upon which the ratepayers practically unanimously set the seal of their approval. And yet here is a coterie of political desperadoes doing all that lies in its power to thwart the purposes of the people and to bring their ambitions to naught.

The saving to the citizens of Victoria the dredge has accomplished is apparent enough. The magnitude of the task of filling in the flats we can appreciate now that the work is so well advanced. Not only would it have cost us a vast sum to complete such an undertaking, but it would have taken us years with the appliances and resources at our disposal to do it. And the reward of our representatives for their efforts on our behalf is the ridicule of those who should be active in strengthening their hands. Nor is the opposition of the narrow-minded partisans confined to criticism and fault-finding. They must needs go outside the city to stir up antagonism. The matter has reached such a scandalous stage that we think it the duty of representative bodies in the city to come to the assistance of those who are laboring in our behalf.

We frankly admit that the people of New Westminster have the first claim upon the services of the dredge King Edward. But we believe it is possible to reach such an understanding with our neighbors as will admit of the completion of the work here without further delay. We believe if the representatives of the people and of the boards of trade of the two cities were to consult together and the political bigots were neutralized for a few weeks an understanding could be arrived at which

would be beneficial to Victoria without inflicting the slightest injury upon New Westminster.

THE LAW AND FAITH.

A decision has been given by a judge of a United States court which is of considerable interest to the world in general in view of the prevalence of a form of religious belief which involves the doctrine that disease is a mere phantom of the imagination. After the decision of the court had been handed down a correspondent of the New-York Post pointed out that the person who had been convicted of "faith cure murder" was a Christian scientist, but a member of the Christian-Catholic Church, of which Dr. Dowling is overseer. This moved the New York Times to point out that the distinction is not of the least importance. The law does sometimes, greatly to the disgust of sensible persons, take overmuch account of the difference between tweedledum and tweedledee, but the decision of the Court of Appeals in the case of Pierson draws no distinctions between sects, and leaves not the slightest ground for the belief that either, in respect to its reasoning or to its conclusions it would hold one denomination of faith cure murderers and let another denomination go free. The court does not affirm the conviction of Pierson because of his adherence to the homicidal practices of the "Christian Catholic Church." It says he must be punished because he refused to provide medical attendance for his minor child, as required by law. This decision is of inestimable public importance. It is the first time that a court of last resort has in unmistakable terms declared that the profession of a belief in faith cure does not constitute a valid defense against the charge of refusing to employ a licensed physician in cases of dangerous illness. There has been a deplorable confusion in the judicial mind in the past, judges setting up their willingness to interfere with what they called the right of religious belief as the reason why they should not declare the plain provisions of the law to be enforceable against persons guilty of faith cure homicides. All that is swept away by the clear language of Judge Haight in the opinion handed down by the Court of Appeals. "Sitting as a court of law for the purpose of construing and determining the meaning of statutes," says the opinion, "we have nothing to do with variances in religious belief, and have no power to determine which is correct. We place no limitations upon the power of the mind over the body, the power of faith to dispel disease, or the power of the Supreme Being to heal the sick. We merely declare the law as given us by the legislature."

VERY ANXIOUS.

The Conservatives are sending out, through the courtesy of the government at Ottawa, six car loads of campaign literature, printed by authority in the office of that independent newspaper, the Montreal Star. Readers of Tory newspapers from Prince Edward Island to Vancouver Island will shortly be treated to some red-hot editorials, prepared under the supervision of the chief organizer in Montreal. The deputy organizers have all resigned because their salaries were in arrears. There were two of them in Ontario, and we do not know how many in other places. For a party which ostentatiously parades its faith in "appeals to reason," the grand old demoralized party carries a fairly large staff. Now that the opposition has made all preparations for a general election under the belief that what it would do if it were in power the Grits are sure to do, it would be just like the usurpers of the Tory prerogative to govern to postpone an appeal to the people for a year or two. The present Parliament has still a couple of years to run before it reaches the end of its constitutional term. There are no indications that there will be any falling off in the prosperity which fell upon the country coincident with the fall of Toryism. The confidence of the people in the future has in no wise been impaired. Indeed the trade statistics indicate that the financial year upon which we have entered will show the greatest amount of expansion, that yet "has been." Therefore there is no necessity for the government, even if it were so inclined, constantly keeping a watch upon the tower for the purpose of giving warning of the approach of the hosts of depression. This feature of the condition of Canada to-day is the result of government for the masses. No section is singled out for special favors, and consequently all are prosperous.

The News-Advertiser, of Vancouver, edited by Mr. Carter-Cotton, M. P. P., has told us why the Liberals selected Mr. Macdonald as their leader. Will our contemporary of prescience pretentious please inform us also why Premier McBride has turned a deaf ear to the importunities of Mr. Carter-Cotton and refused him a seat in the cabinet? Information upon a point about which our contemporary knows a great deal would be vastly more interesting than speculations upon a subject about which its knowledge is very limited.

Andrew Carnegie looks forward to the day when Great Britain, the United States and Canada shall form one nation, with a population of two hundred and fifty millions of people. An acre might as well count Canada, with her

boards of trade of the two cities were to consult together and the political bigots were neutralized for a few weeks an understanding could be arrived at which

fifty or one hundred millions, out. The people of this country at the present time are well satisfied with their condition and prospects. And they are bringing their children up in the political way they should go. When we go the way of all flesh, our sons will not depart from it.

The United States is still carrying a burden on account of the trifling misunderstanding between the North and the South, notwithstanding that the pension list is at last said to be falling through the agency of death. Pension allowances paid since the civil war aggregate \$3,072,105,362. This amount, statisticians say, exceeds the total amount paid as interest on the public debt since the establishment of the government, which is \$3,057,826,081.

I LOVE MY JEAN.

Robert Burns.

Of a' the airts the wind can blaw,
I dearly lo'e the west,
For there the bonnie bairns lie,
The lassie lae best;
Though wild woods grow, and rivers row,
Wi' mony a hill to lea,
Bairn'day an' nicht my fancy's flight
Is ever wi' my Jean.

I see her in the dewy flowers,

I see her sweet an' fair;

I hear her in the tyme's birds;

Wi' music charm that springs

By fountain,shaw or green;

There's not a bonnie bird that sings,

But minds me o' my Jean.

O blaw, ye westlin' winds, blaw soft

Amang the leafy trees,

Wi' balmy gale, frae hill an' dale

Bring hame the ladden bees;

An' bring the lassie back ta me

That's aye neet an' clean;

As blink o' her wad, banish care,

Sae lovely is my Jean.

What sighs and vows among the know-

He's passed between us twa!

How fond tad meet, how wae the part,

That nicht she gaed awa'

The powers aboon can only ken,

To whom the heart is seen,

That name can be sae dear,ie me

As my sweet, lovely Jean!

City News in Brief.

C. E. Heard is at his office, Moody block. Mechanical treatment of rupture.

A. C. Thompson, proprietor of the Ladysmith Recorder, has taken over the old Leader plant under lease from the E. & N. Railway Co. The Recorder will in future be issued in Ladysmith, says the Nanaimo Herald.

A special social will be held at the Salvation Army hall this evening. Mr. Ritchie will give his very popular "Stereopticon Service," and at the close cake and coffee will be served. The proceeds go to help the local corps.

We have received another shipment of woolens from the well known firm of Mann, Byars & Co., Glasgow, which comprises all the latest designs in suits, overcoats and tricornered. Call in and see them. Kinnaird, the cash tailor, 62 Johnson street.

The contract has been awarded to Thomas Catterall, builder, for the construction of a fine residence facing Mount Baker avenue, Oak Bay, for A. T. Goward. F. M. Rattenbury being the architect. The same is to be commenced immediately.

Will this make you get your Xmas photo early? The Skene Lowe studio will make twelve portraits on "silk texture plating," mounted on flexible cream boards and each portrait enclosed in a handsome folder to match, for \$5 cash during the month of October. Last month the price was \$7. Next month the price will again be \$7.

At the Methodist church, Spring Ridge, last evening, Mr. Ritchie gave one of his interesting and instructive stereopticon lectures to a large and appreciative audience. The views shown were excellent. The entertainment was given under the auspices of the literary department of the league, which tenders its thanks to Mr. Ritchie.

H. Glendinning left for Sooke today, and to-night will give an address in the West Sooke hall. Last night he addressed a meeting of the Farmers' Institute at Royal Oak, and on Tuesday night he spoke at Cedar Hill on "Spraying for Insects and Fungus Diseases." To-morrow Mr. Glendinning will speak at Colwood, and on Saturday at Sidney, when the subjects will be "Cultivation of the Land and Rotation of Crops." Mr. Anderson, of the department of agriculture, will also address this meeting.

William Simpson, the boy of 13 years of age who stated that he had been shot at by a hunter who then ran away, has explained to Provincial Constable Cox that the first story told by him was fabrication. He gave it out in consequence of his father threatening to punish him if he played with dynamite. His story of the accident told to Officer Cox at the hospital is that he was playing with a dynamite cap. He was throwing it into the air and catching it. Missing it the cap fell on a rock and exploded. The result was that the boy's face was injured and his thumb and one finger shot off.

The twelfth anniversary of the opening of St. Paul's church, Victoria, West, was celebrated by special services on Sabbath, conducted by Revs. A. Ewing and Joseph McCoy, in the morning and evening respectively, and on Tuesday evening by a social, at which Rev. D. MacRae presided, which was well attended, and altogether an occasion of great interest and pleasure to the members of the church and their friends. The following contributed to the programme: Master George Williscroft, organ solo; Rev. W. L. Clay, address; J. G. Brown, solo; Rev. W. D. Barber, address; Miss Deville, solo; Rev. Dr. Osterhout, address; Miss Amy McKenzie, solo; Rev. A. Ewing, address, and Miss Grace King, solo. Mrs. Dr. Lewis Hall was accompanist.

—There were no cases in the police courts this morning.

Bandeman H. C. Nickling is the winner of Mrs. J. A. Harris' special prize of five dollars, which was offered to the recruit making the highest score in the Thanksgiving shoot. His score was 47.

The agitation which seems to have spread across the United States in regard to the solution of the Mary Ann problem has reached Victoria. Not a few mathematicians have been puzzling their heads over it. For the benefit of those who want to try, here it is: Mary is 24 years of age; Mary is twice as old as Ann was when Mary was as old as Ann is now. How old is Ann?

Seven new targets for gallery ammunition practice in the drill hall have been received from Ottawa. Practice will be commenced on Friday week, and the men who take part will be allowed ten rounds each. Their score sheets will be put on record. Several of the older shots of the regiment will be on hand to instruct the younger members adjusting sights, etc.

A regular fortnightly meeting of the Mother's Club was held yesterday afternoon at the Spring Ridge school. There was a good attendance. "Courtesy to Parents and Elders" was the subject of a paper by Mrs. Maynard. It was of an exceedingly interesting and instructive character, and was heartily appreciated. Another meeting will be held on the first Wednesday in November, commencing at 3 o'clock, instead of 3.30 o'clock.

At the residence of the officiating minister, Rev. D. MacRae, the marriage took place on Tuesday evening of Mr. James Henry Dickson and Miss Hannah Jessie McDonald, the groom having been supported by Mr. George Kerr, and Miss R. E. Emery acting in a similar capacity for the bride, with Little Miss Beatrice Williscroft as maid of honor. Mr. and Mrs. Dickson on their return from a trip to the Mainland will make their home in Victoria West.

The annual entertainment of the Metropolitan Sunday school will be held in the schoolroom of the church on Tuesday, November 3rd, at 8 p.m. The Sunday school orchestra of 15 members, under the leadership of A. Partit, is arranging for the musical part of the programme, and will render several selections during the evening. Vocal and elocutionary numbers will be contributed by leading local talent, among those who have consented to assist being Mrs. Staniland, Miss Underhill, J. G. Brown and Rev. C. F. Connor. There will be no admission fee charged.

An important real estate deal was transacted this morning when Messrs. George Meldrum and Harry Maloney, proprietors of the Brown Jug (purchased the corner in which their business is transacted). The property takes up the frontage on Government street as far as, Challoner & Mitchell's, and includes the premises occupied by A. A. Clayton, the jeweller on Fort street. The purchasers have had an option on it ever since they took over the Brown Jug business, about two years ago. The corner is one of the finest in the city, and quite a number have been after it. The new owners feel that they certainly have a peice.

A. B. C. Denniston, general Western passenger agent of the Great Northern railroad, announces the following changes in the passenger office employees in the offices, under his jurisdiction: Henry Higgins, travelling passenger agent for California territory, resignation accepted to take effect October 1st. J. W. Phalon, travelling passenger agent for Portland territory, transferred to the San Francisco office to succeed Mr. Higgins; transfer to take effect November 1st. While no definite decision to that effect has been reached, it is possible that a man from the Seattle office will be transferred to Portland to take the place of Mr. Phalon as soon as the fall rush at the Seattle office is over. J. Sherman Taylor, assistant ticket agent at Portland, resignation accepted, to take effect November 1st. Edwin R. Stephen, ticket clerk in the office at Victoria, B. C., appointed to be assistant ticket agent at Portland, to succeed Mr. Taylor. S. W. Drasovich, ticket clerk at San Francisco, resignation accepted, to take effect October 1st. Mr. Mills, a clerk in the office in Detroit, appointed to succeed Mr. Drasovich, to take effect October 15th.

Yesterday evening at the James Bay Methodist church Mr. Frank James Schneider and Miss Violet Emery were united in the bonds of matrimony by Rev. J. P. Westman. The church was prettily decorated for the occasion. Only relatives and intimate friends of the contracting parties were present during the ceremony, which took place at 7 o'clock. The newly-married couple are widely acquainted in James Bay district. Mr. and Mrs. Schneider were the recipients of a handsome array of presents. They will spend their honeymoon on the Mainland, and upon returning will take up their residence in Victoria.

W. Francis Firth, by request, gave "The Bandolero" (Stuart) as an encore, and it was a happy choice, as his magnificient baritone voice showed to perfection in it. Among his other numbers Mr. Firth sang one of his own composition, "O Father, Hear Me," but his fine operatic singing in the duet with Mr. Eaton (as a lady) was somewhat marred by the amusing memories of Mr. Eaton's preceding burlesque.

CONCERT ARRANGED FOR WORTHY PURPOSE

Preparations for Benefit to Be Tendered
W. J. Harris on Saturday Evening

—A Splendid Programme.

Arrangements are now complete for the benefit concert in the Victoria theatre Saturday evening, tendered to W. J. Harris by the Musicians' Mutual Protective Union, under the patronage of the A. O. U. W. and A. O. F., of which Mr. Harris has been a member for many years.

The committee having preparations in hand composed of Conductor Emil Pfender, Bandmaster J. M. Finn, Bandmaster J. F. Ramsay, F. Sampson, F. Shepherd, T. F. Gold, J. C. North, A. Greenwood and J. McSwiney, have every reason to feel gratified. As the sale of tickets is even greater than anticipated, those who desire reserve seats should be prompt in securing them.

Among some of the great attractions will be selections from some of the most eminent composers, by a band comprising 50 musicians, under the baton of the old veteran leader, Emil Pfender. This band has been rehearsing for the past few days, and will no doubt make Victorians proud to know they have an aggregation second to none on the Coast. Herr Peters will entertain the audience in some of his mystic features, introducing new and clever acts.

Miss Ellis, one of Portland's talented young ladies, will also delight lovers of good music with her enlivened soprano voice, appearing before a Victoria audience for the first time. Other professional talent has been secured, who will introduce special attractions, not forgetting the old reliable Big Four.

Hear the masses band on the street Saturday evening.

WORKMEN MEET.

Trades and Labor Council Hold Their Regular Gathering Last Night.

The Victoria Trades and Labor Council met last evening in Labor hall.

The committee appointed to deal with the question of incorporation reported that the application had been refused on the ground that the Benevolent Society Act would not allow of trades unions incorporating under it. It was decided to delay any further action until it was ascertained how Vancouver Trades and Labor Council became incorporated.

J. McKenzie and F. Dewsnap, representing the Blacksmiths' Union, presented their credentials, and were formally admitted as delegates.

Messrs. McEachern, Ryan and Holden were appointed on the organizing committee, and Messrs. Kelly and Kermele were appointed additional members of the legislative committee.

The question of admitting delegates from unions which were not chartered by their internationals was raised again. It came up on a motion to admit unions chartered by the American Federation of Labor. Opposition was taken to it on the ground that the Dominion Trades and Labor Congress had decided against this principle. It was finally decided by a large majority to lay the motion on the table.

An appeal for co-operation in the benefit concert to be given on Saturday night for a member of the band who had been sick for a long time was made by Bandmaster Finn. The council decided to attend in a body.

The executive and legislative committees were instructed to report to the next meeting upon the report of the royal commission, which inquired into the causes of strikes in British Columbia.

The council then adjourned.

Yesterday evening at the James Bay Methodist church Mr. Frank James Schneider and Miss Violet Emery were united in the bonds of matrimony by Rev. J. P. Westman. The church was prettily decorated for the occasion. Only relatives and intimate friends of the contracting parties were present during the ceremony, which took place at 7 o'clock. The newly-married couple are widely acquainted in James Bay district. Mr. and Mrs. Schneider were the recipients of a handsome array of presents. They will spend their honeymoon on the Mainland, and upon returning will take up their residence in Victoria.

W. Francis Firth, by request,

gave "The Bandolero" (Stuart) as an encore, and it was a happy choice, as his magnificient baritone voice showed to perfection in it. Among his other numbers Mr. Firth sang one of his own composition, "O Father, Hear Me," but his fine operatic singing in the duet with Mr. Eaton (as a lady) was somewhat marred by the amusing memories of Mr. Eaton's preceding burlesque.

ASSOCIATION FOOTBALL.

MATCH YESTERDAY.

A match was played yesterday between teams from Company 48 (sub-marines) and Company 44 (fortress). After a good game the former won by a score of 4 to 1.

MEETING TO-NIGHT.

A meeting of the V. M. C. A. club will be held this evening for the purpose of selecting a club captain and a team.

PROFITABLE PRACTICE.

A profitable practice was held by members of the V. M. C. A. Football Club at Beacon Hill yesterday. There was a large attendance and some good play.

ATHLETICS.

CLUB ORGANIZED.

A Victoria fencing club has been formally organized. At a meeting held at the offices of A. J. Kitch some days ago officers were elected as follows: President, Captain Davidson; vice-president, T. L. Graham; secretary-treasurer, A. J. Kitch.

A strong executive committee was also appointed. It is proposed to secure premises in some central locality for the purpose of instruction. After the club is firmly established an assault at arms will be held. Championships bouts will take place between swordsmen from different neighboring points. Before long the club intends offering a trophy for the swordsman winning the amateur championship of the Pacific Northwest.

BASEBALL.

NEXT SEASON'S LEAGUE.

President W. H. Lucas of the Pacific National League, has gone to St. Louis to attend the meeting of the league magnates in that city. Upon his return he will visit Vancouver and look over the ground with a view to having that city represented in the league next season. In an interview at Spotswood Mr. Lucas said:

"There will be six teams in the league next year," says Mr. Lucas. "We could have eight clubs, but six gives the teams more chances to play at home and does not keep them on the road too long at a stretch."

"You'll believe Tacoma will be in our league next year," says Mr. Lucas. "We could have eight clubs, but six gives the teams more chances to play at home and does not keep them on the road too long at a stretch."

"There is money in the league treasury, and I believe that most of the clubs have made some money for their owners. The league will be strong next year, whatever the outcome of the California trouble may be." I cannot tell yet that will come out, but the P. N. L. will be in the Seattle field next year, and Dugdale has secured grounds for his new team."

LACROSSE.

HOW SHAMROCKS WON.

"After the keenest, fastest and most exciting game of lacrosse ever seen in the West the Shamrocks of Montreal defeated the Vancouverites of British Columbia, on Saturday on the National baseball grounds," says the San Francisco Call. The score was: Shamrocks, 7 goals; Vancouverites, 3 goals. The winners played a closer game than the losers and excelled them in shooting for goal. In other respects the teams were evenly matched. Little Currie, the centre of the Shamrock team, caught the attention of the spectators by his brilliant play. He was loudly applauded on many occasions. Some of the players became exasperated at times and indulged in foul tactics, for which they were ruled off the field for spaces of three or five minutes. There was a large attendance, the spectators being highly enthusiastic. The Shamrocks being short two men, Hodson and Finlayson, the spare man, Hogan, took a place on the team. The Vancouverites also played eleven men, one being the absentee. The lack of the was noticed in the attacking line of the Vancouverites.

The ball was put into play by William Green Harrison at 3.17 p.m., and after three minutes and twenty-five seconds play the first goal was scored by P. Brennan for the Shamrocks. The second goal was scored by the Vancouverite team in 1.40. The first period ended without further result. Score—Shamrocks, 1; Vancouverites, 1. During this period, Howard, of

the Shamrocks, and Morrison, of Vancouver, were ruled off for tripping and O'Brien, of Vancouver, for slushing an opponent.

"After five minutes' interval the second period opened. In 4.15 P. Brennan obtained a second goal for the Shamrocks. After two minutes thirty-seven seconds play J. Hogan put the ball through for the Shamrocks again. J. Brennan added another goal to the Shamrock score in two minutes, the second period ending with the score, 4-1.

"Play had been started only twenty sec-

onds in the third period when the Shamrock cover point, Reilly, went all down the field and scored a goal for the Shamrocks. Then a long spell of back and forth play ensued, thirteen minutes forty seconds elapsing before O'Brien put the ball through for Vancouver, in one minute more Vancouver secured another goal. The period ended with the score: Shamrocks, 5; Vancouverites, 3.

"The first third of the fourth period was closely contested, neither side being able to score until the Shamrocks obtained a goal in 7.20. Score—Shamrocks, 6; Vancouverites, 3. Then T. Brennan, of the Shamrocks, added another goal to the list in 6.25. Score—Shamrocks, 7; Vancouverites, 3. Melchior, first defence of the Shamrocks, was ruled off three-quarters of an hour. The game ended without further incident.

The officials of the day were as follows:

Referee, M. J. Tandy; umpires, A. E. Snelling and A. B. Smith; time-keepers, H. J. Trickey and Frank Wright; field captains, O'Connell, of the Shamrocks, and Smith, of the Vancouverites.

SUNDAY'S MATCH.

Last Sunday's match between the Vancouver team and the All-California aggregation was described in the San Francisco Call as follows:

"Before an enthusiastic Sunday throng that cheered justly the swift, clever work of the men in the field, the Vancouver lacrosse team defeated the All-California aggregation at the National ball-park by a score of 11 to 8. While encased in form and style, the men from the Golden State put up a hard fight and won the admiration of the spectators from the beginning of the first quarter.

"The play was even and pretty well open

throughout the first quarter, and was comparatively free from checking, as the teams were feeling each other's strength and skill. Vancouver scored the first goal in one minute. Vancouver retaliated with two goals. California scored again, then Vancouver and then California, the quarter ending with the score of 3 to 3. Crittely, the California home, scored all its goals by good combination work, in which California showed great improvement over the two games in which it participated last week. It could be seen, however, that the lighting combination work by the Vancouver home, McCutcheon, was too much for the opposing defence.

Another matter that is receiving the attention of the Vancouver club is the question of a dog tax or license. It is claimed that at the present time hundreds of mongrel dogs are running about the streets upon which no license fee has been placed. In addition to this, these mongrels constitute a menace to the breeders of thoroughbred animals, who, besides being subject to this menace, have themselves paid the tax for their good class dogs because they value them. To assist in overcoming this difficulty the club will suggest to the Vancouver city council that it amend its by-laws, as far as they affect dogs, upon the lines adopted by Toronto and other cities, where the owner of thoroughbred animals is encouraged and the promiscuous breeding of mongrels discouraged.

THE TURF.

BY LOU DILLON.

Memphis, Tenn., Oct. 21.—What was ex-

pected to be one of the greatest harness horse contests in local history proved to be a very tame affair yesterday, when Lou Dillon gave Major Delmar a decisive beating in two straight heats, in ordinary time.

After five minutes' interval the second period opened. In 4.15 P. Brennan obtained a second goal for the Shamrocks. After two minutes thirty-seven seconds play J. Hogan put the ball through for the Shamrocks again. J. Brennan added another goal to the Shamrock score in two minutes, the second period ending with the score, 7 to 5 in favor of Vancouver.

"Play had been started only twenty sec-

onds in the third period when the Shamrock cover point, Reilly, went all down the field and scored a goal for the Shamrocks. Then a long spell of back and forth play ensued, thirteen minutes forty seconds elapsing before O'Brien put the ball through for Vancouver, in one minute more Vancouver secured another goal. The period ended with the score: Shamrocks, 5; Vancouverites, 3.

"The first third of the fourth period was closely contested, neither side being able to score until the Shamrocks obtained a goal in 7.20. Score—Shamrocks, 6; Vancouverites, 3. Then T. Brennan, of the Shamrocks, added another goal to the list in 6.25. Score—Shamrocks, 7; Vancouverites, 3. Melchior, first defence of the Shamrocks, was ruled off three-quarters of an hour. The game ended without further incident.

The officials of the day were as follows:

Referee, M. J. Tandy; umpires, A. E. Snelling and A. B. Smith; time-keepers, H. J. Trickey and Frank Wright; field captains, O'Connell, of the Shamrocks, and Smith, of the Vancouverites.

SUNDAY'S MATCH.

Last Sunday's match between the Vancouver team and the All-California aggregation was described in the San Francisco Call as follows:

"Before an enthusiastic Sunday throng that cheered justly the swift, clever work of the men in the field, the Vancouver lacrosse team defeated the All-California aggregation at the National ball-park by a score of 11 to 8. While encased in form and style, the men from the Golden State put up a hard fight and won the admiration of the spectators from the beginning of the first quarter.

"The play was even and pretty well open

throughout the first quarter, and was comparatively free from checking, as the teams were feeling each other's strength and skill. Vancouver scored the first goal in one minute. Vancouver retaliated with two goals. California scored again, then Vancouver and then California, the quarter ending with the score of 3 to 3. Crittely, the California home, scored all its goals by good combination work, in which California showed great improvement over the two games in which it participated last week. It could be seen, however, that the lighting combination work by the Vancouver home, McCutcheon, was too much for the opposing defence.

Another matter that is receiving the attention of the Vancouver club is the question of a dog tax or license. It is claimed that at the present time hundreds of mongrel dogs are running about the streets upon which no license fee has been placed. In addition to this, these mongrels constitute a menace to the breeders of thoroughbred animals, who, besides being subject to this menace, have themselves paid the tax for their good class dogs because they value them. To assist in overcoming this difficulty the club will suggest to the Vancouver city council that it amend its by-laws, as far as they affect dogs, upon the lines adopted by Toronto and other cities, where the owner of thoroughbred animals is encouraged and the promiscuous breeding of mongrels discouraged.

THE TURF.

BY LOU DILLON.

Memphis, Tenn., Oct. 21.—What was ex-

pected to be one of the greatest harness horse contests in local history proved to be a very tame affair yesterday, when Lou Dillon gave Major Delmar a decisive beating in two straight heats, in ordinary time.

After five minutes' interval the second period opened. In 4.15 P. Brennan obtained a second goal for the Shamrocks. After two minutes thirty-seven seconds play J. Hogan put the ball through for the Shamrocks again. J. Brennan added another goal to the Shamrock score in two minutes, the second period ending with the score, 7 to 5 in favor of Vancouver.

"Play had been started only twenty sec-

onds in the third period when the Shamrock cover point, Reilly, went all down the field and scored a goal for the Shamrocks. Then a long spell of back and forth play ensued, thirteen minutes forty seconds elapsing before O'Brien put the ball through for Vancouver, in one minute more Vancouver secured another goal. The period ended with the score: Shamrocks, 5; Vancouverites, 3.

"The first third of the fourth period was closely contested, neither side being able to score until the Shamrocks obtained a goal in 7.20. Score—Shamrocks, 6; Vancouverites, 3. Then T. Brennan, of the Shamrocks, added another goal to the list in 6.25. Score—Shamrocks, 7; Vancouverites, 3. Melchior, first defence of the Shamrocks, was ruled off three-quarters of an hour. The game ended without further incident.

The officials of the day were as follows:

Referee, M. J. Tandy; umpires, A. E. Snelling and A. B. Smith; time-keepers, H. J. Trickey and Frank Wright; field captains, O'Connell, of the Shamrocks, and Smith, of the Vancouverites.

SUNDAY'S MATCH.

Last Sunday's match between the Vancouver team and the All-California aggregation was described in the San Francisco Call as follows:

"Before an enthusiastic Sunday throng that cheered justly the swift, clever work of the men in the field, the Vancouver lacrosse team defeated the All-California aggregation at the National ball-park by a score of 11 to 8. While encased in form and style, the men from the Golden State put up a hard fight and won the admiration of the spectators from the beginning of the first quarter.

"The play was even and pretty well open

throughout the first quarter, and was comparatively free from checking, as the teams were feeling each other's strength and skill. Vancouver scored the first goal in one minute. Vancouver retaliated with two goals. California scored again, then Vancouver and then California, the quarter ending with the score of 3 to 3. Crittely, the California home, scored all its goals by good combination work, in which California showed great improvement over the two games in which it participated last week. It could be seen, however, that the lighting combination work by the Vancouver home, McCutcheon, was too much for the opposing defence.

SUCCESSFUL CONCERT
IN INSTITUTE HALL

Splendid Achievements in Song and Instrumental Music, as Also in Recitation.

The Faculty concert given under the auspices of the British Columbia College in Institute hall last evening was a success in every respect, but that of attendance, which considering the merit of the programme was lamentably small. The audience, though small, however, was decidedly appreciative. Miss Queenie McCoy, one of the vocalists, was twice the recipient of a beautiful bouquet of roses. She introduced the programme and with a sweet mezzo-soprano, such a voice as is too seldom heard in Victoria, at once captivated her audience. She sang "Consuelo a Nina," by Wekerlin, with a charm that provoked the most enthusiastic admiration. An encore was insisted on, and in her second appearance the singer created the same warm impression. Miss McCoy was down on the programme for three numbers. Her second was "Tell Me Ye Winged Winds," a local composition for which the composer, G. J. Burnett, played an excellent accompaniment. The song is propounded by many to be one of Mr. Burnett's best, and in Miss McCoy's rendition received a delicacy of treatment that exemplified its true art. Pauli Tosti's "Good-bye" was one of the singer's best selections, the strong sentimental feelings of this old favorite; as well as the technique required in its rendition, being properties for tone-production which the vocalist handled in a most masterly manner.

Miss Mandie Underhill gave as a reading the Famine Scene from "Hiawatha" as a second number on the programme and in other readings during the evening gave Eugene Field's "A Little Bit of Woman," "Something," "Sein' Things," and a selection from Hogan's "Mrs. Wiggs." Each number received warm applause, and Miss Underhill was repeatedly recalled. As an eccentric Miss Underhill is well known to Victorians, and that she is popular may be

COMMUNICATIONS.

WHAT IS COMING?

To the Editor:—I am a plain, quiet going cultivator of the soil, and accustomed to look at things in a practical way, and form my opinions as reason and common-sense guide me, and if it would not be encroaching too much on your valuable space, I should like to say something on the subject of our approaching parliament and the prospects before it and the country.

This subject, I think, must be felt to be one of very grave importance by every elector, who has the good of his country at heart, and gave his vote to the man of his choice in the hope that when in his place in parliament he would attend to the urgent wants of this great and growing country, and do all in his power to promote its best interests, and whether he possessed that higher patriotism which ought to animate every man, who occupies such a position or not, as the paid servant of the public he was bound to fulfill the duties he undertook and pledged himself to perform.

If anyone could attend the numerous meetings which take place in Victoria in the course of a year, and held as they are by the managers or representatives of trusts, or other public institutions, he would find there assembled men of culture and high standing calmly and carefully discussing the subjects they have met to consider, and giving their influence and earnest efforts to promote the well-being and increased usefulness of the institutions they represent; but if the same individual should visit the highest assembly of the nation, as it will be seen when parliament meets, what will he find? Not the quiet dignity, order and progress seen in those smaller assemblies, but two hostile factions struggling for supremacy, while in absence is held the vital interests of the most interesting and progressive country on the face of the globe.

The numbers on each side of those opposing parties are nearly balanced, but the side with any difference in its favor dare not attempt to introduce any measure of importance which would give the other side the chance it is eagerly watching for, and so comes a deadlock, which

SAILORS' RIGHTS.

To the Editor:—The thought came to my mind that with such a majority of Liberal members as we now have some freedom can now be asked for all seafaring men to enable them to vote. The Queen City left here Oct. 2nd. Her votes were useless, as voter must be registered in Victoria between 9 and 7, but no fraud could occur if the votes were sealed up then placed in the ballot boxes. Among the seafarers we have over 200 voters when not away on their occupation. My son sailed away five days too soon to vote. My youngest voted as he was home. Last time I voted for W. S. Fielding in Halifax I had to obtain my ship three days in New York to do so. It is a shame. We are ostracized. Whether it is the salt water or not, there is an affinity between Liberalism and salt water.

GEO. W. MURRAY.
42 First St., Victoria, B.C., Oct. 20th.

A NORTHERN RAILWAY.

To the Editor:—Your statement last evening that Sir Wilfrid Laurier, in speaking on the boundary question, has already said that Canada must have an all-Canadian road to the Yukon should bring before the public the fact that the British Columbia charter for such a road has already been obtained, and financial arrangements have been made to start the construction of the same early next spring. We speak of the British Columbia Northern & McKenzie Valley railroad, a splendid map of which may be seen at the office of the company, 19 Broad street. The above road is chartered to build from the sea at Nasoga Gulf to Telegraph Creek, from where a trunk line will run to Atlin. Another trunk line runs north via the Dease river to the northern confines of the province, thence through the Northwest Territory to Dawson. Steamer will connect the ocean terminus with the Coast cities, thereby giving a direct Canadian route to the far North, besides placing Vancouver and Victoria in a position to hold the Northern trade even after the Grand Pacific is built. The business men of the province should be alive to their interests and give this their support, for the simple reason that if the Grand Trunk taps the Northern country from the east their aim will be to supply the needs of the North from the east, thereby cutting off the trade

Bad Kreuth concerning the German Crown Prince, who had been on a visit to Duke Theodore of Bavaria. The report says the Crown Prince, dressed in shooting costume, entered the music room of the castle, which was full of guests, and called for a piano. There was none at hand, but a harpsichord stood in the room. It was locked, and as the key was not immediately forthcoming the Crown Prince broke it open with an iron bar, smashing the woodwork of the instrument in so doing. Having broken it open, he did not play in the normal way, but proceeded to hammer the keyboard with its clenched fists, at the same time kicking the lower part of the harpsichord with his heavy shooting boots. Finally, after he had wrecked the harpsichord, the Crown Prince swaggered out of the room, extremely pleased with himself. Complainant was made to his host Duke Theodore of Bavaria, who promptly compensated the owner for the loss sustained through the Crown Prince's behavior.

RECIPROCITY IN TRANSPORTATION.

To the Editor:—As we are all Americans, why not encourage the system of the American coasting rule of protection? The British Canadian ports are open to the United States ships. They can load at Chemungus, for Great Britain or South Africa or Australia come flag, but a vessel under the British flag has no such privileges between ports flying the United States flag. Do to others as others do to us. We would be the judges without offence. I sailed the Antelope and the Kingross the past five years between the Hawaiian Islands. Four years ago the United States flag was hoisted. That ended the business, as cargoes no longer were permitted from Hawaii to Trieste, Italy, last. Instead is the rule for a German or British vessel which take a cargo to Trieste, Portland and London, Portland, Sound, as sugar can only be carried in a vessel sailing from the United States. There is no retaliation. But the British coasting is as long as the American trade and can employ as many people. New York round the Horn to the Philippines, Honolulu is for United States vessels, and it is coasting from London to Calcutta, Hong Kong to Australia and Vancouver should be coasting also, for British vessels. The United States, when not able to redomesticize itself from taking or beginning favors from Canada.

Pandora Range

OVEN-THERMOMETER NO "BAD LUCK" BAKING DAYS.

Twenty degrees difference in the temperature of an oven is sufficient to make "Good Luck" or "Bad Luck" in baking many kinds of food.

The heat in the oven of a range not fitted with a thermometer or worse.

Fitted with a poor instrument will easily vary twenty degrees—result is unequal, burned or half-baked food, a cross cook and a disappointed family at meal time.

Thermometer fitted in oven door of "Pandora" range has been a proven success for fifteen years, and every instrument is carefully adjusted, and tested by heat, before sending out the first, best and only thermometer which is of any real value to those who do baking.

"Pandora" range is handsome, economical on fuel and a perfect baker.

Sold by all enterprising dealers. Booklet free.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria
Meteorological Department.

**Victoria, Oct. 22.—5 a. m.—A vast and
important area of high barometric pressure
covers this entire western portion of the
continent from the Pacific to the Lakes
region. It is central in Montana, where the
barometer stands at 30.50 inches. No pre
cipitation has occurred during the last 24
hours, except light showers at Port Arthur.
The weather has been fine in all dis
tricts, with moderate temperatures west of
the Rockies, and 10 or 12 degrees of frost
in the Northwest.**

Forecasts.

For 36 hours ending 5 p. m. Friday.
Victoria and vicinity—Moderate or fresh
easterly winds, continued fair and cool.
Lower Mainland—Light or moderate
winds, continued fair and cool.

Report.

**Victoria—Barometer, 30.19; temperature,
45; minimum, 37; wind, 9 miles N. E.;
weather, clear.**
**New Westminster—Barometer, 30.18;
temperature, 38; minimum, 38; wind, calm;
weather, clear.**
**Barkerville—Barometer, 30.20; tempera
ture, 28; minimum, 28; wind, calm; weather,
clear.**

**San Francisco—Barometer, 30.02; tem
perature, 52; minimum, 52; wind, 8 miles
W.; weather, cloudy.**
**Edmonton—Barometer, 30.22; tempera
ture, 30; minimum, 28; wind, 4 miles S.;
weather, clear.**

ESQUIMALT NOTES.
Invitations for England—Promotion
of former Resident.

Nine men from the navy leave for
home via the C. P. R. to-night. The
number includes seven sailors.

**Edward Earl, who for five years occ
cupied the position of head carpenter in
the navy yard, has retired from service
with a promotion to the rank of lieutenant
-ant.**

The survey ship *Egeria*, which is now
working around Queen Charlotte Islands,
is expected at Comox on the 29th. She
will then renew provisions and return
again to her work of surveying the
northern coast.

Heart Disease

RELIED IN 30 MINUTES.

DR. AGNEW'S HEART CURE IS THE
MYSTIC REMEDY.

This remarkable preparation gives perfect
relief to all malady in all cases of organic
or sympathetic heart disease and speedily
effects a cure. It is a magic remedy for
palpitation, shortness of breath, smothering
spells, pain in left side and all symptoms
of a diseased heart. It also strengthens
the nerves and cures rheumatic disorders.

TACOMA ARRIVES FROM THE ORIENT

DERELICT TOWED IN BY THE TUG ALBION

**Wishkah, Which Capsized in the Straits,
Now in Harbor—Spokane Picked
Up Survivors—Notes.**

War in the Far East is always a
prolific topic of discussion with officers
of inbound steamships. All arrivals
from Japan have seen some of the pre
parations which that country has been
making for a conflict, but there are differ
ences of opinion as to whether a fight will
really take place. There were no
Japanese passengers on the steamer Ta
coma which arrived here at noon to-day,
but there are those aboard who do not
expect war. The officer of the steamer
is one of those. He says that there are
not as many evidences of war now as
there were when the Tacoma was in the
Orient on her previous trip.

The Tacoma left Yokohama on the
5th, and on the 9th and 10th had bad
weather. The day before yesterday the
steamer Yesdo was met, and yesterday
the Shima Maru was passed. Both
were bound outward cargo laden. The
Tacoma brings for Victoria 31 steerage
passengers and 120 tons of freight. For
points beyond this city she has 2,500
tons of freight and 28 Chinese and 15
Japanese.

PICKED UP SURVIVORS.

The British ship Corolla, now out 145
days from Port Natal, South Africa, for
Valparaiso, has been crossed from the
list of survivors and posted as not insurable
after having been quoted at 90
per cent. reinsurance. With the Amer
ican ship Hellen Brewer, the British ship
Aristides and the British ship Milton
park, the Corolla makes the fourth vessel
posted as not insurable during the
past few weeks.

The British ship St. Mauno, from
Amsterdam for Taftal, has been advanced
to 35 per cent. reinsurance, while the
Norwegian barque Catharina, 142 days
out from Tacoma for Decepcion Bay, still
remains at 20 per cent.

MARINE NOTES.

The ship Crompton left for Vancouver
last evening in tow of the tug Lorne,
where she will discharge another por
tion.

A dispatch from Port Oxford, Ore
says: "The life raft to which it is sup
posed six persons from the sunken
South Portland are clinging, has not
been seen to-day, and hope of rescue is
growing less. A tug has been sent along
the shore in an attempt to weight
the sinking craft, but there is little hope
that they will survive. Although
the beach has been carefully pat'led
for miles during the past 24 hours, no
bodies have been washed ashore. Ac
cording to the latest reports the missing
number 21, the known dead 1, and 17
sewed.

"The coroner's jury empanelled to
investigate the death of Charles L.
Hudson, first assistant engineer of the
steamer South Portland, say in the
finding that Capt. McElroy "was cer
tainly negligent in his duties as has
been in abandoning the wrecked steamer be
fore seeing to the safety of the pass
engers and crew."

MUTINY ON IRONCLAD.

A meager account of a mutiny on the
French barque Sully was brought from
Tahiti by the steamer Mariposa, arriving
at San Francisco. The Sully is a
new steel barque built a few months
ago at Nagasaki, and is reported to have
sailed in ballast on June 9th last for the
coast of Chile under command of Capt.
Le Cremer. Bad weather was encountered,
masking the vessel's progress slow,
and the provisions ran low. They were
originally, according to the story, sent to
Tahiti of exceedingly poor quality as
well as sparse in quantity, and growing
hunger had the effect of making the
crew ugly.

Long before reaching the South Seas
the men's anger was broken out into
threats, and the prospects appeared
bad for Capt. Le Cremer and his mates,
when he decided to put into Papeete, a
French colony. He arrived there on
September 9th and immediately took
steps to file charges against his mutin
ous crew. He was in turn the object of
complaint by his men, and was detained
by the French authorities at Papeete,
pending the result of a trial that had been
begun when the Mariposa left the island.

ASCAT COMING.

The big transhipment Ascat, which
early in the present year brought a full
cargo of Japanese coal from Manila
to Vancouver for the use of the C. P. R.
when the Island mines were closed
down by strikes, should reach port next
week from Japanese ports with a cargo
of 5,000 odd tons of raw sugar. She is
consigned to the British Columbia sugar
refinery. After loading cargo at Java
the Ascat sailed for Mukoran, where
she took on bunker coal.

The Ascat sailed from Mukoran on
October 10th.

WISHKAH IN PORT.

Tug Albion brought in from Beaufort
Bar last night the capsized schooner
Wishkah which the Indians at that
point had found and made secure a
week or so ago. With the use of tackle
the schooner was righted and stood on
an even keel, and save for the absence
of masts and rigging, is little the worse
for her experience. She is now at anchor
in the upper harbor, having been tugged
over to the collector of customs as re
ceiver of wrecks. The Wishkah, it will

be remembered, capsized in a storm
about the first of the month. She was
lost 14 miles off Port Crescent, being
then on a maiden voyage from Aberdeen
to Seattle. Ben Gustavus and Andrew
Sandberg, who were in her at the time,
were rescued by the fishing schooner
Ella Jane. The Wishkah as she stands
is estimated as worth between two and
three thousand dollars.

B. G. FRUIT.
I Won Knightian Silver Medal at the
Chiswick Exhibition.

British Columbia fruit growers will be
pleased to learn that the exhibition of
peculiar fruits which was sent to Eng
land won the Knightian silver medal at
Chiswick, awarded by the Royal Horti
cultural Society. In this connection the
following letter has been received from
the agent-general:

Dear Sir—I am directed by the Agent
General to say he finds he did not advise
you personally of the arrival of the
specimens of preserved fruits for the Royal
Horticultural Society's show at Chiswick.
The best specimens were picked out and
sent to Chiswick on 25th ultimo, where the
fruit was well displayed with a number of large
framed photographs of B. C. farming
scenes. The exhibit, though small, created
a great deal of interest among the visitors
and there was a large demand for the
pamphlets which had been placed on the
stand.

You will be pleased to hear that the
Knightian silver medal was awarded to
the exhibit, although no damage was sus
tained en route. Among the ship's saloon
passengers was Mr. Turner, who some
years ago was connected with the
Moodyville mill staff, but who has lat
er been in business at Pekin. The
Tosa brought 148 steerage passengers for
Victoria and 78 for points on the
Sound. Her cargo consisted of 3,142
tons, or 20,124 packages, made up as
follows: Raw silk, 406 packages; silk
goods, 49; matting, 12,770; ten. 6,917;
curios, and porcelain, 2,264; pineapples, 28;
fan, 72; cassia, 50; lily bulbs, 43; mer
chandise, 6,055; parcels, 12. Total, 26,124
packages.

For Victoria the ship landed: Rice,
1,500; provisions, 335; Chinese wine,
160; miso and soy, 100; tea, 35; mer
chandise, 71. Total, 2,201 packages.

FOUR VESSELS MISSING.

The British ship Corolla, now out 145
days from Port Natal, South Africa, for
Valparaiso, has been crossed from the
list of survivors and posted as not insurable
after having been quoted at 90
per cent. reinsurance. With the Amer
ican ship Hellen Brewer, the British ship
Aristides and the British ship Milton
park, the Corolla makes the fourth vessel
posted as not insurable during the
past few weeks.

The British ship St. Mauno, from
Amsterdam for Taftal, has been advanced
to 35 per cent. reinsurance, while the
Norwegian barque Catharina, 142 days
out from Tacoma for Decepcion Bay, still
remains at 20 per cent.

MARINE NOTES.

The ship Crompton left for Vancouver
last evening in tow of the tug Lorne,
where she will discharge another por
tion.
